

RTS

Si-400 and Si-600 Remote Test Switch

RTS Features:

- Remote Test Switch provides remote testing capability for Si-400 and Si-600 inverters and unit equipment. Not compatible with emergency ballasts and drivers.
- Field selectable 120 or 277 voltage.
- Power "ON" LED indicator light and push-to-test switch for mandated code compliance testing.
- Remote test switch can be mounted to any standard switch box.
- Suitable for wall or ceiling mount.
- Injection-molded, engineering grade, V-0 flame retardant, mounting plate in white finish.
- One year warranty.
- Meets UL924, NFPA 101 Life safety code, NEC, OSHA, Local and State Codes.
